

DRAGONFLY PENDANT

The form of the lamp resembles a huge ancient insect, flying above. The lamp is hanged from the ceiling using 3 thin steel wires that are connected to each of the 3 edges of the wooden body.

While hanging, the lamp can be tilted in different angles. By adding a number of dragonfly lamps together, the effect changes to create the feeling of branches in a forest. The bulbs can be replaced by removing 5 screws and taking off the acrylic cover.
